

Ally Integrated Healthcare

PSYCHIATRY & ADDICTION MEDICINE SPECIALISTS

Welcome Back!

We're reopening our office on Monday, June 22 and here's what we are doing to keep you, our clinicians and others healthy.

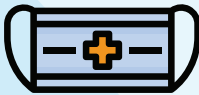

Ally Health & Hygiene Guidelines

We are thoroughly cleaning our office before opening and we are cleaning and disinfecting throughout the day.

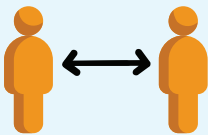

We are taking clinicians' temperatures before and during their day.

We're wearing masks in the office and ask that you do too.

We are limiting the number of clients in the office at one time.

We're observing social distancing, so please stand 6 feet away from others.

Hand sanitizer is available for use throughout the office.

We may ask you to comply with additional mandated safety measures as required.
